Romanucci & Blandin, LLC is a personal injury law firm with a mission and a passion for helping the catastrophically injured. Founders Antonio M. Romanucci and Stephan D. Blandin have dedicated their professional and personal lives to representing victims and their families in the search for the restitution they deserve.

Over the years, Antonio and Stephan have come to understand the emotional, physical and financial toll that an accident takes on victims and their families. With the heartfelt belief that justice will prevail, they engage in tireless preparation and the utilization of countless resources to help their clients win in a court of law.

Two of our Emerging Lawyers, Michael E. Holden and Bruno R. Marasso, look to carry on this philosophy at the firm for years to come. Holden and Marasso are representative of the next generation of Romanucci & Blandin attorneys, who all believe that the best part of practicing law is helping their clients obtain the justice they desire.

Senior Associate Michael Holden focuses on medical malpractice, nursing home abuse, construction industry accidents, auto accidents, and slips and falls.

Associate Bruno Marasso concentrates on plaintiff’s personal injury cases, including construction negligence, automobile collisions, wrongful death, premises liability, police misconduct, sexual abuse and institutional misconduct.

Both Emerging Lawyers have been mentored by the senior partners since the beginning of their legal careers. With their help and guidance, Holden and Marasso have grown more comfortable with appellate and trial work, as well as having the emotional back bone and empathy to truly connect with the individuals they serve. Completing the circle, both are now in a position to pass on their knowledge and experience to the younger associates and law clerks.

For both Holden and Marasso, Romanucci & Blandin is the only law firm where they have ever worked – And it is where they hope to remain for the remainder of their careers, continuing the strong tradition of justice, fairness and integrity taught by Antonio Romanucci and Stephan Blandin.
